Natural Beef Sales

Circle L Ranch is the name of our beef cattle farm located about 20 miles from the Galaxy in Burbank, Ohio. Natural beef is sourced locally from our farm and served at the restaurant. We produce a combination of Limousin (which is naturally leaner) and Angus, called Lim-Flex, providing the perfect blend of beef product. Cattle are raised at Circle L Ranch antibiotic & hormone free. We offer natural beef products you can take home, from the farm to your table, absolutely great for grilling. They come frozen for convenience, right from the freezer onto the grill, so easy.

Once you experience this beef, we promise you will be hooked.
